Genetic Algorithms and Evolutionary Computation Creationists often argue that evolutionary processes cannot create new information, or that evolution has no practical benefits. This article disproves those claims by describing the explosive growth and widespread applications of genetic algorithms, a computing technique based on principles of biological evolution. Outline of machine learning - Wikipedia Data Science: Data to Insights from MIT (machine learning) Popular online course by Andrew Ng, at Coursera.It uses GNU Octave.The course is a free version of Stanford University's actual course taught by Ng, see.stanford.edu/Course/CS229 available for free].
